

MMAF Members

I was very pleased to see so many members present on a day that was just a bit too windy for most of us to take to the air. I would like to encourage renewing members to send in your membership as soon as possible. The costs of maintaining the airfield this year are going up as our lease is increasing. Additionally, the cost of fuel will likely impact our budget this year as well. As we actively begin planning our 2008 club activities we need to know what funds we have available.

The meeting notes are detailed below. Please contact me if anything was omitted.

Happy Flying,
Scott Hall

MMAF Meeting Notes

6 April 2008

The meeting opened at 2:00 at the airfield with about ten members present.

Old Business: None

New Member – Tom Brown from Cordova. Please welcome Tom to our club, hobby, and addiction.

Treasury: (Rick "Wild Man" Stange)

Starting Balance	\$***.**
AMA Charter	-\$90.
Member Dues	+\$50.
AMA Event Sanctions	-40.
March Balance	\$***.**

The lease on our airfield has doubled for 2008. The cost has risen from \$35 to \$75 per year.

The AMA sent out a letter requesting non-profit organizations to fill out a form electronically. Unfortunately, our EIN # had been moved to an inactive state due to inactivity with the IRS. Rick had to contact the IRS to reactivate the number and will attempt to reapply on the AMA website once the files are updated. Filing will be required annually.

New Business:

Paul Lauts - As many of you are aware, long time MMAF member Paul Lauts passed away earlier this month. The cost of a floral arrangement will be deducted from next months balance.

PO BOX – There is a need for a club PO box. Without it, changes in leadership require us to change the address and contact person that information is sent to. The decision to get a PO box in Morrison was approved by majority vote. The anticipated cost is \$40 per year.

Airfield Workday – A workday to facilitate getting the needed spring work done was discussed. At this point, a date has not been decided. The oil and filter need to be changed on the tractor. We also discussed applying Grub Ex to the field. If you are able to help with these items please contact a member of the club leadership.

Fuel Order- Last year Dick place a fuel order for the club. If you would like to order fuel from D & D Hobbies please contact Dick Landsiedle at dndhobby@frontiernet.net

Club Events:

Open House- Our open house is approved for June 28th. Tell all your RC friends to come out! We need volunteers for setup, Q&A, flying demonstrations, and for pilot training / instruction. Please plan on bringing your models for display and / or flying. Any modeling information or magazines you no longer want can be brought for handing out to the public. If you have a contact in the scouting community, please bring them to our attention; we would like to involve them in this as well. We need everyone's help to make this event a success. Please contact [Jim Fuller](#) to find out how you can help us promote and conduct this event.

Fun Fly – Our Fun Fly is approved for July 20th. We will be following a similar format as last year with possibly a few changes to some of the events. Please contact [Darryl Miller](#) if you can participate in the operation of this event.
